

Coordination – The RiskBand Aries platform provides teachers and faculty accurate and real-time information in an emergency to provide effective guidance.

2-WAY VOICE COMMUNICATION

2-way voice connection is formed with GEOS responders or your school's on-site dedicated security command center.

GPS LOCATION TRACKING

Combining both satellite and cellular positioning services, RiskBand provides an assured geo-location in an emergency situation.

IMAGE CAPTURE AND TRANSMISSION

The device takes 8 images per second with date, time and location stamps each one providing an accurate picture of the situation.
